

# Joni Mitchell's

## Music and Painting

In this presentation Tom Gerry will share some details of Joni Mitchell's career as a painter and musician. Tom will demonstrate that Mitchell's celebrity status is only a small part of her life story, a part that she largely rejects, in fact. Rather, she sees herself—and she is—consciously and seriously, an artist: a painter, poet, singer, guitarist and pianist. Her song lyric, "Life is our cause," succinctly expresses her approach to her art.
